

# U4EU 2.0

## THE U4EU ROADMAP

Since 2019, what started as an idea to give voice to young people has grown into a strong youth community and valuable partnerships across 9 EU countries.

From "Youth Debating the Future of Europe" (U4EU) to "Youth Shaping Europe's Tomorrow" (U4EU 2.0), our mission was one: to empower young people to actively contribute to decision-making and strengthen their sense of belonging to the EU.

After 13 activities - trainings and workshops - we believe our goal is well achieved.

On the final conference in Athens, participants talked about their experience within the project. It was really inspiring to hear directly from them, their experiences, their stories and how being part of this journey has shaped their mindset, broadened their perspectives, and supported their personal growth.

**The real impact lies in the people, the connections and the change we create.**
